**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This office action is in response to communication dated February 20, 2004. Amendments to claims 1, 15, 18, 29 and 32-36 have been entered. Claims 1-36 are currently pending and have been examined. Applicant's arguments regarding rejection of claims 32-36 under 35 U.S.C. 101 made in the last office action (Paper No. 15) are persuasive and hence these rejections are withdrawn by the examiner. Applicant's arguments regarding rejections made under second paragraph of 35 U.S.C. 112 of claims 1 and 18 made in the last office action (Paper No. 15) are persuasive and hence these rejections are withdrawn by the examiner. The objection to specification, rejections and response to arguments are stated below.

#### *Specification*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:  
The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
3. The specification is objected to under 35 U.S.C. § 112, first paragraph, as failing to support the subject matter set forth in the claims. The specification, as originally filed does not provide support for the invention as now claimed.

The test to be applied under the written description portion of 35 U.S.C. § 112, first paragraph, is whether the disclosure of the application as originally filed reasonably conveys to the artisan that the inventor had possession at that time of later claimed subject matter. Vas-Cat, Inc. v. Mahurkar, 935 F. 2d 1555, 1565, 19 USPQ2d 111, 1118 (Fed. Cir. 1991), reh'g denied (Fed. Cir. July 8, 1991) and reh'g, en banc, denied (Fed. Cir. July 29, 1991).

Claims 1-36 include the limitations "dynamic metric data" and "dynamic ratio of the quoted value and at least one metric value derived from the dynamic metric data". However, the

Art Unit: 3624

specification does not provide an enabling disclosure to support the claimed limitations of “dynamic metric data” and “dynamic ratio of the quoted value and at least one metric value derived from the dynamic metric data”.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:  
The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
5. Claims 1-36 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, claims 1-36 are rejected under 35 U.S.C. § 112, first paragraph, for the reasons set forth in the objection to the specification.

***Response to Arguments***

6. Applicants’ arguments with respect to amended claims 1-36 pertaining to “dynamic metric data” and “dynamic ratio of the quoted value and at least one metric value derived from the dynamic metric data” have been considered but are moot in view of objections to specification and the new ground(s) of rejection.

Applicants’ other arguments have been considered but are non-persuasive.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3624

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
